PROJECTS

MediLocker (In Development – Final Year Project)

- A Java full-stack project for secure medical record storage.

Portfolio Site (HTML, CSS, JavaScript)

- Developed a personal portfolio website to showcase projects and skills.

Spotify Frontend Clone (HTML, CSS, JavaScript)

- Designed a responsive UI resembling Spotify for frontend practice.

Various Login Page Clones (Amazon, Flipkart, Google, Canva, etc.)

- Replicated multiple website login pages using HTML, CSS, and JavaScript.

Calculator (JavaScript, HTML, CSS)

- Built a fully functional calculator with a user-friendly interface.

University Website (Practice Project – Dummy Site)

- Created a static website for a university using HTML, CSS, and JavaScript.

AI Chat Assistant (JavaScript-based)

- Developed a voice-controlled assistant for basic computer functions.
- Features include volume and brightness control, app and website management via voice and text commands.
